

Homeowner's Appliance Class

Saturday May 14, 2022

9am-1pm

Cost: \$5 per person (no credit cards, please)

Call to Reserve Your Spot

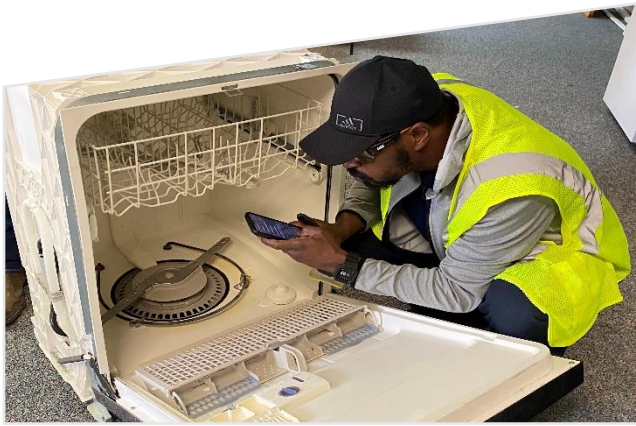

757.586.5322

809 Omni Blvd. Newport News, VA 23606

This class will be presented by David Gillespie,
President and Owner of Virginia Technical Academy

Why attend this class?

Did you know nearly 15,000 fires are started yearly in the U.S. due to built-up lint inside dryers? **Learn how to take your dryer apart to clean the inside!**

Did you know cleaning your refrigerator condenser coils every few months can prolong the life of your refrigerator and keep it running more efficiently? **Learn where your condenser coils are and how to access and clean them!**

Did you know performing a self-clean for your oven can damage the elements inside the oven? **Learn what you can do instead.**

Whether you are a new homeowner or not, come to this class to learn about maintenance on your household appliances and how to do minor repairs. More importantly, know when to call in the experts. Mr. Gillespie will go over the following appliances: washer, dryer, dishwasher, stove, refrigerator, and microwave. Come prepared to get your hands dirty! And please keep young children at home.
